Lead Free Statement

June 15, 2004

This statement is to address the use of certain hazardous substances in products manufactured and supplied by Mag Layers USA, Inc. as described in RoHS Directive Jan 27, 2003 & Feb 6, 2003.

This letter certifies that products manufactured and supplied by Mag Layers USA, Inc meet the RoHS Directive under the specific terms set forth in Article 4(1)

All products manufactured and supplied by Mag Layers USA, Inc shall contain a non detectable amount of mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), diphenylether, pentabromo derivative C₁₂ H₅ Br₅ O, diphenylether, octabromo derivative C₁₂ H₂ Br₈ O.

This letter also certifies that 100% lead free terminations have been used since Jun 2003. The body of the MLI and MLB series product meets the RoHS directive under Article 4 (1) 7.d.

Mag Layers USA, Inc has a concern with environmental issues facing us all. We are always striving to remove as much lead and other hazardous substances from our products and processes as possible.

Questions or feedback about this policy should be directed to Brian J Nowaske at (800) 427-4010 or brian@maglayersusa.com
