

MAG LAYERS

SEPTEMBER-2006

NOTICE OF INTERNAL PART NUMBER CHANGE

RE: MRT-5026-330M-E-RU

To all of Mag Layers customers who are currently using MRT series components with part numbers MRT-5052-330M-RU we would like to inform you of an internal part number change created to alleviate production confusion by maintaining two separate part numbers for the same product. From this notice forward, all orders for MRT-5052-330M-RU will now be labeled MRT-5026-330M-E-RU.

This is not an engineering change notice, there will be no substitution of materials nor will there be a change in performance. Please update all records to reflect this new part number as all future orders will not be accepted for the old part number.

This document will be posted in the Tech Notes section of our website. You may find additional information regarding Mag Layers USA, Inc. on our web site at www.maglayersusa.com.

We look forward to working with you and hope we are able to provide you with a superior level of support and customer service.

ISO14001, ISO9001, & QS9000 Certified manufacturer of Inductors & Ferrite Beads
