

# MAG LAYERS

**2-JAN-2006**

**NOTICE OF INTERCHANGABILITY**

**RE: MLB series Ferrite Beads**

To all of Mag Layers customers who are currently using MLB series components with part numbers ending in N1 we would like to inform you of the option to use MLB series components ending in N2 as a direct replacement. The N2 material is an advancement of our technology and provides the opportunity to migrate away from the N1 material without a sacrifice in performance. We have no plans to obsolete the N1 material at this time. We do however want to promote advances in our technology for your benefit.

This notice does not apply to customers who are using the N2 material and would prefer to use the N1 material.

This document will be posted in the Tech Notes section of our website. You may find additional information regarding Mag Layers USA, Inc. on our web site at [www.maglayersusa.com](http://www.maglayersusa.com).

We look forward to working with you and hope we are able to provide you with a superior level of support and customer service.

*ISO14001, ISO9001, & QS9000 Certified manufacturer of Inductors & Ferrite Beads*
